

## IOT Indoor Gateway Indoor Lora WAN based Gateway

### Features

- ◆ Open Source Open WRT system
- ◆ Managed by Web GUI, SSH via LAN or WiFi
- ◆ Emulates 49x demodulators
- ◆ WAN Gateway
- ◆ 10 programmable parallel demodulation paths

## Advance Outdoor Gateway with Sim Card & Poles for Mounting

### Features

- ◆ Web GUI, SSH via LAN or WiFi Outdoor Long Range IoT Gateway Long Range IoT packet filtering Farseeing LED indicator
- ◆ Built-in GPS module for location and timing
- ◆ 802.3af PoE option to add on IP65
- ◆ Power Consumption: 12v 300 - 500mA 10 feet GI pole for mounting
- ◆ WPC Certified
- ◆ Sim Card with 3 Year Data pack for monitoring data at server application Lighting Protection
- ◆ 10M/100M RJ45 Ports x 1 1 x 2.4G WiFi (802.11 bgn)
- ◆ 1 x USB host port Power by 12v DC or PoE
